

# Next steps and planning

- Open to audience now for discussion and brainstorming on coverage of topics
- Questions on general organization:
  - Who are the customers for an International data exchange system?
  - Who are the INCO Trust counterparts across the various countries? eg. US; NSF/DHS/ or is it bi-lateral story?
  - What does it take to engage the other OECD countries? How do we bring them on board? Should we do it in phases?
  - How do we enhance integration between policy and technology decision makers?

# Fall 2011 Workshop

- We are inviting position papers (2-3 pages) from you for *consideration for the fall workshop. They are due 1<sup>st</sup> September 2011 (note: papers can cover one or more topics)*
  - What existing tools for sharing, analysis and collaboration could we build on?
  - What organizational examples of collaboration and sharing can we learn from?
  - What are a comprehensive set of research topics? What gaps are there?
  - What are the short-, medium- and long-term challenges? Which require early focus or urgent actions?
  - What priorities and schedule should guide planning.

# Fall 2011 Workshop

- We are inviting position papers (2-3 pages) from you for *consideration for the fall workshop. They are due 1<sup>st</sup> September 2011 (note: papers can cover one or more topics)*
  - How do we divide efforts across various stakeholders in data exchange across industry research, and government?
  - Are there dissemination actors that could be used to promote our work while it is developing?
