

4th Euro-Africa Cooperation Forum on ICT Research
Cape Town, South Africa, Nov. 14-15, 2011

***International cooperation on research in
Trustworthy ICT-
the EU perspective***

Jesús Villasante

European Commission
Information Society and Media Directorate General
Unit F5 - Trust & Security

European Commission R&D international cooperation policy

- Increase **competitiveness** through research partnerships with third countries
- Address **specific problems** that third countries face, or which have a **global character**, on the basis of **common interest** and **mutual benefit**

Why international collaboration in ICT ?

- Relation ICT – development
- Comparative advantages / different experiences
- Targeted research (applications that benefit developing countries)

Why cooperation on trustworthy ICT?

- Information society knows no boundaries, neither do the threats
- Stimulate the take-up of new services, bridging the digital divide
- Critical infrastructure protection
- Reliable and trustworthy provision of everyday services
- New challenges to security, data protection, privacy (ex. cloud computing)

EU-Africa cooperation: the current state

- “Science, **information society** and space” is one of the 8 themes of the **Joint EU-Africa partnership**
- **ICT/FP7 Research Programme**
Cooperation with Africa on ICT research has grown significantly in the ICT/FP7 programme compared to IST/FP6
- Stimulating international collaboration for research in the specific area of T&S – **INCO-Trust** and **BIC**

Security, Privacy, Trust in the Information Society

- Complexity, ease of use
- Role of end-users
- Society-protecting business models

Technology & Innovation

End-Users & the Society

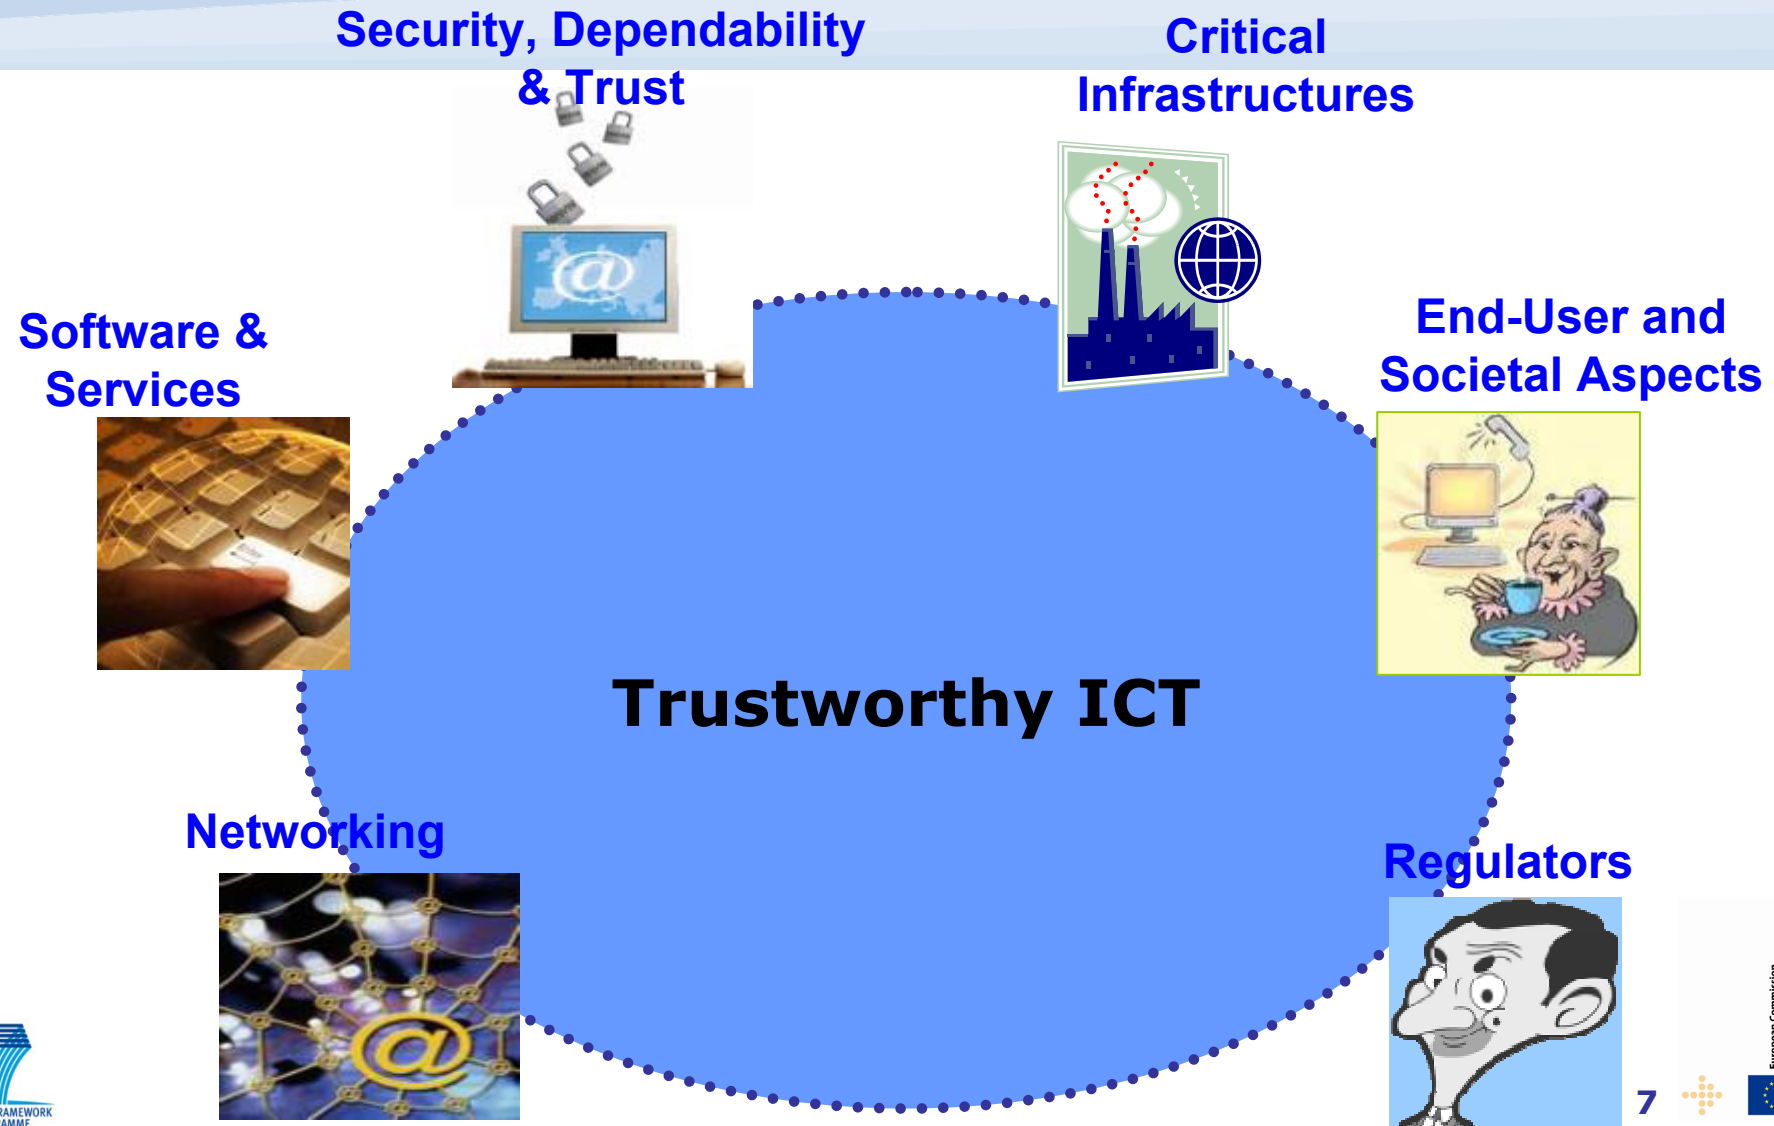

**Trustworthy
Information
Society?**

- Global ICT - national “frontiers”
- “Economics of security”
- Policies for privacy-respecting T&I?

- Security
- Protection of human values
- Transparency, accountability
- Auditing and Law enforcement

Policy & Regulation

Trustworthy ICT Research Stakeholders

7th EU Research Framework Programme (2007-2013)

Total 50,521 M€

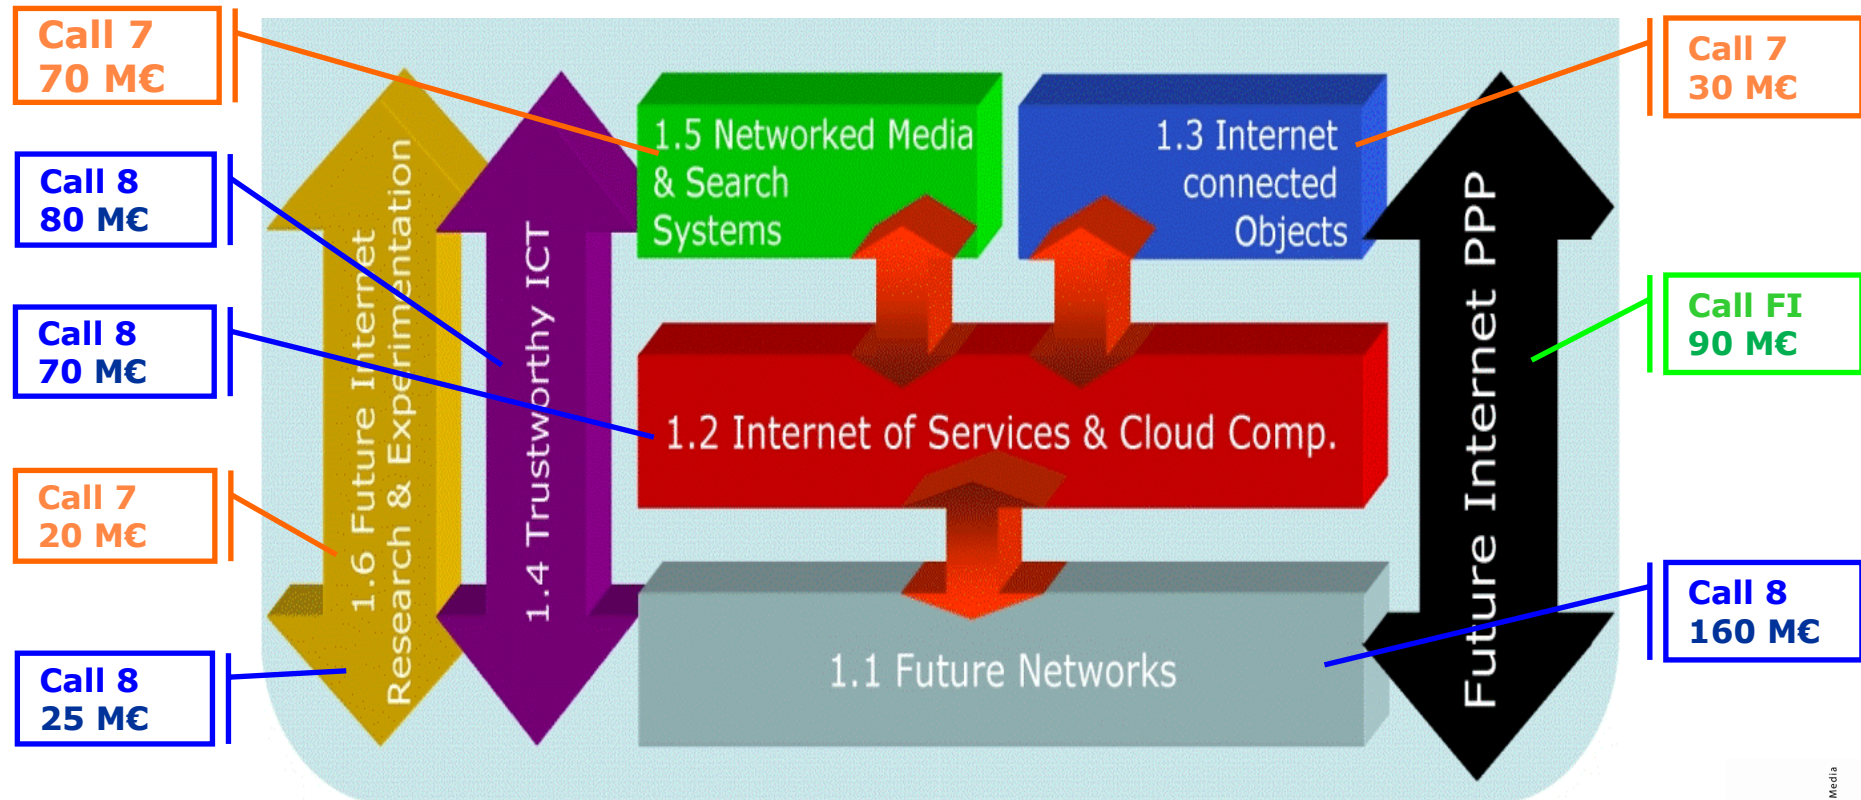

FP7 Cooperation Programme: 32,413 M€ The 10 Themes

FP7 Info - Challenge 1

Pervasive and Trustworthy Network and Service Infrastructures

Call FI	20/07/10 – 02/12/10
Call 7	28/09/10 – 18/01/11
Call 8	26/07/11 – 17/01/12

Current portfolio

Trust and Security: 58 projects

of FP7 **Call 1** and **Call 5**

200 m€

Network infrastructures

4 projects
7 projects **40M€**

Identity management, privacy, trust

8 projects
5 projects **60M€**

Services infrastructures

4 projects
7 projects **48M€**

Critical Infrastructure Protection

9 projects **20M€**

Enabling technologies

Biometrics, trusted computing, cryptography

4 projects
4 projects **27M€**

Networking, Coordination and Support

Research roadmaps, metrics and benchmarks,
international cooperation, coordination activities

4 projects
2 projects **5M€**

FP7-ICT Call 8: 1.4 Trustworthy ICT

80 m€

20/7/2011 – 17/1/2012

Heterogeneous networked, service and computing environments

Trust, eIdentity and Privacy management infrastructures

Data policy, governance and socio-economic ecosystems

Networking and coordination activities

70 M€

Min. 50% IPs

Min. 30% STREPs

Max. 10 M€

NoE, CSA

Our stakeholders

Main industrial beneficiaries in Call 5 projects

Our stakeholders

Main academic beneficiaries in Call 5 projects

Trust and Security in the Digital Agenda for Europe

low trust = low use

- Digital single market
- Interoperability and standards
- Trust and security
- Very fast Internet
- Research and Innovation
- E-skills
- Social challenges

Main objectives of today's event

- Exchange of views on the current state of the art
- Get to know better each other's capabilities, achievements and research interests
- Identification of common challenges
- Prepare the ground for future cooperation
